

ACCURATE • AVAILABLE • RESPONSIVE • QUICK

Air Flavors Liquid with SE-500 Powerful, long-lasting fragrance in a versatile, concentrated cleaner.

Powerful: Highly-fragranced, water-based, light-duty cleaners: AirFlavors contain Neutron's patented SE-500™ odor eliminator, so they pack a much bigger punch than those weak grocery store copycats!

Smells Great: The fragrances are so mouth-watering you can almost taste them! And they smell great even when you dilute them for light-duty cleaning! Lemon Squeeze, Sunburst, Touch of Spice and Rainbow Scents Assortment Pak.

Saves Money: Air Flavors are highly concentrated, so you control the amount of product you use. Use more for challenging odors or cleaning; less for lighter odor control.

Versatile: The possibilities are endless!

- Add to carpet shampoo to control musty odors and leave an amazing scent!
- Add to mop water to eliminate odors while you clean.
- Use right out of the bottle or dilute with water to freshen the air.
- Spray on all fabrics that will not be stained by water.
- Use with Neutron's Fogmaster Jr. to maximize total-room odor elimination, save time, and minimize cost.

Use On: Beds, bed linens, comforters, car/truck interiors, carpeting, clothing, draperies, fabric furniture, floors, walls, countertops, upholstery, linens, virtually all fabrics, add to mop water & carpet shampoo...the list is endless!
